

# A BRUSH WITH FAME

## Young Sloppy Brush

is the tragic story about a once handsome brush made sloppy by the evil-doings of a careless artist. For the first time ever, the star of this internationally famous award-winning student-made movie is on a mission to prevent the needless neglect and destruction of other innocent brushes.

During the 2009-10 school year Young Sloppy Brush (the actual brush actor himself) will be visiting art rooms around the globe sharing his movie, song, and message with art students.

Go online to explore the interactive map of his travels, read the journal postings, view the photo album of pictures from the many faces and places he visits along the way, and purchase a keepsake photo album documenting this unique opportunity to have a BRUSH WITH FAME,
